## Projects

### [Amazon clone](#)

Nov. 2023

- It is a clone of popular e-commerce website Amazon.
- Amazon could be a prime example of an internet site with all the key parts creating up a decent e-commerce website.
- If the business doesn't have an e-commerce website, they're dead money on the table. Tech stack used: HTML, CSS, JavaScript, Github

### [Portfolio website](#)

Dec. 2023

- It is my second project on web development. This portfolio website is going to showcase my educational as well as professional journey.
- According to me portfolio website is a very unique way where we can link all our profiles like linkedin, Instagram, Github and various coding platform.
- Tech stack used: HTML, CSS, JavaScript, Github

## Achievements
